Thanks. They did reach out yesterday with a question.

FYI - Mike and Marion are talking to Carrie about aldicarb today. Marion may be reaching out to Amy for some information.

Mike:

We received AgLogic's drinking water exposure assessment for aldicarb some time ago as well as a proposed lateral groundwater flow velocity study.

Marion

See the comment from Carrie on water and data.

I do not know who "they" are or what data they are referring to, but we need to be prepared to fill Carrie in on what we received.

I believe the company submitted a white paper on things like ground water flow rates, but don't know if there has been anything else submitted.
